

Fellow Patients,

Ortho Montana Therapy is continuing to provide therapy services in a safe and responsible manner during this time of concern caused by the COVID-19 pandemic. We appreciate your continued trust in us and want to express it is still a privilege to serve you. In an effort to mitigate the risk of contagion, we are taking the following actions to create a safe environment for our staff and patients:

Policies to Safeguard Everyone in our Clinic:

1. Prior to entering our clinic, we are screening every patient with the following questions:
 - a. Have you had a fever (100.4 F) in the last 72 hours and/or onset of cough or difficulty breathing/shortness of breath?
 - b. Have you traveled to infected countries or out of the state (besides Wyoming, Idaho, North Dakota, or South Dakota)?
 - c. Have you been in contact with anyone who has tested positive for the Coronavirus?
2. All clinic staff and patients are washing/sanitizing hands before and after each therapy visit
3. All treatment tables and equipment are sanitized between patient visits
4. We are practicing social distancing by separating our waiting room chairs, encouraging patient's family members to use our chairs outside of the clinic doors, and using private treatment rooms as able
5. Therapists will wear masks and gloves as appropriate for close treatments

**TIPS FOR KEEPING
OUR CLINICS HEALTHY**

Wiping equipment after each use

Increased handwashing (20 sec+)

Increased use of hand sanitizer

Please Stay home if you have a temperature
or are ill

(Effective March 13, 2020)

For patients who are "high risk," (based on the latest CDC recommendation: > 60 years old, heart disease, diabetes, cancer, hypertension) or are uncomfortable being treated in our outpatient clinics, we can make accommodations to call to "check in" on you regarding your home program and provide any instruction we can over the phone.

We are also hopeful to provide Telehealth Options for our therapy patients in the near future!

Thank you!

Ortho Montana Therapy Team
